Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

A table tap comprising a plurality of outlets each having one set of terminal insertion holes for insertion of the plug terminals of a power source cord or the like are disposed at intervals, these outlets being connected by a joint having flexibility, is known (examples: JP 9-63723 A, JP 6-19218 U, etc.). The invention described in independent Claim 1 cannot be said to have "a special technical feature," that is, a technical feature which clarifies the contribution which the individual inventions make as a whole to prior art. (see Rule 13.2.)
(see extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☒ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
☐ No protest accompanied the payment of additional search fees.

Continuation of Box No.III of continuation of first sheet(2)

Therefore, there is no technical relation including one or more identical or corresponding "special technical features" between independent Claim 1 and independent Claim 2 or between independent Claim 1 and each Claim described by quoting independent Claim 1.
